It would be great if they provided answers to check your work. Sadly found out they don’t after I had completed Chapter 1 and wrote in it. I understand looking up the answers myself, but would rather have an answer key, especially since I’m pretty sure there’s a typo in one part of Ch. 1!

Truly wonderful book and coincidesâ ‹ with the textbook.

I like it ok but you need the textbook for it to help you. I think it would be nice if that is the textbook you use. I will be returning it because it’s just not what I thought it was. sorry

Helped my mom alot in her class and payed less than the school price and nearby locations and got

it before her next class day just hours within notification.

This book has a lot of mistakes and does not explain properly.
