Synopsis

INCLUDES THE TOP 100 INTERVIEW QUESTIONS! Would You Like To Learn Exactly How To Correctly Prepare For An Interview & Give Yourself The Best Possible Chance Of Getting Hired In The Modern Job Market? - NOW INCLUDES FREE GIFTS! (see below for details)

Are you currently searching for a new job? Have you been invited to interview for a position and want to give yourself the best opportunity of succeeding? Have you recently attended an interview, but things didn't go as you'd hoped? Have you not attended an interview for some time and need some pointers on what recruiters are looking for in the modern job market? Are you a newly graduated student who wants to know exactly how to ace an interview in order to land your first job? If the answer to any of these questions is yes, this book will provide you with the answers you've been looking for! It is not too much of an exaggeration to think of a job interview as one of the most nerve wrecking situations one can be in. For young job seekers, it can be a defining moment which " whatever the outcome may be " can have a massive impact on one's self-esteem. For career changers, there's no telling what to expect in the unpredictable job market. Times have certainly changed, and so have the requirements and expectations of employers; what was acceptable or applicable a few years ago may not be so in the modern age. This also means that hiring practices are no longer the same. Ultimately, when it comes to nailing a job interview, knowledge is power and preparation is key! In this practical and concise guide, you will learn about the " dos and don'ts " of interviewing for a job opening. The tips and tricks in this book are specifically geared towards helping you land a job in the present-day job market. With the right preparation, you can give yourself the competitive edge which may well be the all important deciding factor in whether or not you land that dream job! In this book we will look at:

- Job interviews: then vs. now - How things have changed and how your interviewing skills should reflect these changes
- How to best prepare for an interview - The fundamentals to succeeding in an interview
- The importance of anticipating the questions you're likely to be asked and how to know which questions you should prepare for
- The importance of making a good first impression and exactly how to do this
- How to deal with nervousness, including some practical techniques you can take advantage of
- Body language - What to be mindful of, and how to use your body language to your advantage in an interview
- The top 15 questions you're likely to be asked in an interview analyzed in detail, and the types of answers which are most likely to land you the job!
- The top 12 mistakes interviewees make, and exactly how you can avoid them
- How to recover if the interview starts going badly
- The top 100 questions you're likely to face in an interview, broken down into question-type. If you're prepared for these, you'll be better prepared than 99% of your competition!

Customer Reviews

It is 3 years since I graduated, I have attended several interviews, I have gotten a job in very few of them and given regret feedback in most of them. I want to land to my dream job and therefore I have been looking for information to help me prepare for my dream job interview in advance. The book has really given me great insight on best interview preparation, from what I have read in the book, I was able to identify few mistakes I have done in my previous interviews, I feel very prepared for an interview and I cannot wait to be invited for an interview for my dream job, as I am in the look out for it. Excellent book, I wish I landed to this book 3 years ago as I could have performed better.

This book has some fantastic advice on how to prepare and perform at job interviews. It really covers many aspects in detail and tells you what the interviewer wants to know and how to answer the most common interview questions that we've all been asked. I really liked the fact that there is a section on particularly tricky, "think-outside-the-box" types of question, which the book dissects very

well. Highly recommended book, as you'll learn all you need to know about an event that we all have to go through at some point!

This book really helped me prepare for interviewing. It's organized in a very helpful way that allows you to quickly identify which sorts of questions will most likely apply to you. It also gives examples of "no, no, no!" types of answers in addition to the sorts of things that interviewers want to hear. The idea isn't to memorize the answers, but rather to have a starting point for answering the questions in your own way when actually on an interview.

Excellent guide to be successful in a job interview. The book informs us what a recruiter wants and how to be prepared for an interview including how to dress, setting a good first impression, how to dress appropriately etc. Other information includes things to avoid in an interview as well as 100 Interview questions to prepare for. Truly a great guide for job seekers who want to be successful.

I grabbed this book for my nephew who is a fresh graduate and want to apply for a job. This book could be a great guide for him because a lot of tips and advice were here to help him be prepared for the job interview. Even I have learned from this book as well. And even though I got a job already I can still use this in the future if ever I will apply for a new job. This is really helpful and informative.

This book can really help you with preparing yourself for any interviews. The author gives you also many frequent questions you can struggle with on the interview. "Describe the color red to someone who is blind" I love that one. It is a hard question but you can find out how to answer it in this book. Go for it and help yourself.

I pick this book for my brother who will be undertaking his first interview for his first job. Nailing a job is hard nowadays. The competencies is hard and changing. I like the guide for my brother and I am hoping the tips and the preparations written can help him.

Its been a long time since I haven't experience being interviewed for the job. This time I am planning to move on other job for how many years I have stayed in my current company - I really forgot how to prepare myself for an interview. This book helped me refresh my mind and built up my confidence again and proved those panels that I deserved more because I am worth it.
