Koto Bolofo: Horse Power

Synopsis

The horse has a long and rich history as a subject in the visual arts. In sculpture and painting, in the decorative arts and most recently in photography, the horse has been celebrated for its cultural and social importance. Horse Power is a compelling photographic portrait of the horse today. During one week in September 2009, Bolofo documented life on the grounds of esteemed racehorse trainer Christiane Head-Maarek at Chantilly, France's famous racehorse town. Rising early each morning to make the most of the rare access he had gained, Bolofo photographed charming everyday occurrences--a blacksmith forging a horse shoe; filing a horse's hoof; grooming, walking and riding the animals--as well as making candid portraits of ambitious teenage jockeys-to-be. Bolofo explores every aspect of horse power--the physical strength of these million-dollar animals, their cultural and sporting status and their noble beauty.

Customer Reviews

The book is absolutely beautiful. The pictures are take you on an intimate tour of the race horse's life, and of those that live with the horses. I purchased this as a gift, and after seeing it in person, will now purchase one for myself.
