Smart Women Finish Rich: 9 Steps To Achieving Financial Security And Funding Your Dreams

Synopsis

With hundreds of thousands copies in print around the world, *Smart Women Finish Rich*, by renowned financial advisor David Bach, has shown women of all ages and backgrounds how to take control of their financial future and finish rich. Whether you're working with a few dollars a week or a significant inheritance, Bach's nine-step program gives you tools for spending wisely, establishing security, and aligning money with your values. Plus, in this completely revised and updated edition, David Bach includes critical new long-term investment advice, information on teaching your kids about money, Internet resources, and new ways to attract greater wealth "personal and financial" into your life.

Best Sellers Rank: #22,152 in Books (See Top 100 in Books) #71 in Books > Business & Money > Personal Finance > Budgeting & Money Management #80 in Books > Business & Money > Investing > Introduction

Customer Reviews

A couple of reviewers blasted this book as being useless rehashed financial advice. I'll bet you anything that those reviewers didn't really give the book a chance. I know because I almost didn't, and initially I had the same reaction as they did. I'm an intelligent woman, my father and grandmother both taught me about investing growing up...also, as another reviewer mentioned, there are some pretty hokey "personal accounts" used to illustrate lessons, that I could have done without. I bought the book at the airport for something to read on the plane and if I wasn't forced into a situation where I had nothing else to read, I probably never would have made it past the first couple of chapters. I'm so so so very glad that I did. You can't just skim this book for the bits you think are relevant to you; you have to really get into it. Read it from cover to cover, then go back and start working on the charts like the "values ladder" and "Goals for Designing a Proactive Life"

worksheet. Why? Because they make you look long and hard at your own value system, visualize the future you want for yourself, and then write down specific and measurable steps to take to get there...no matter how modest those step may be initially. I don't make a lot of money, and despite what my father and grandma taught me I've accrued almost 15 grand in credit card debt, not to mention college loans. I work in a field that doesn't really inspire me because I've always wanted to be a full-time artist. Until I read this book that was just a far off dream. I never really thought about what it would take for me to get there.
