Auto Insurance Revolution: A Critique Of Auto Financial Responsibility Laws

Synopsis

The author's intention is to make auto liability insurance less expensive and fairer. Within this book is a plan to improve auto insurance business practices. As things now stand there have been no meaningful changes to the system since 1936. It has been under the control of lawyers and state legislatures for 80 years, EIGHTY years without any dynamic change. It is apparent that the only way to get significant change to the law is through a referendum. This is a description of what is wrong and is step one, of a plan, to initiate a referendum.
