## Customer Reviews

I bought this thinking it is a whole book. But to my surprise, it just contains a copy of 4 page article from the book. 4 pages for 8 bucks? I can't help but think that I got ripped off. I should have read the reviews more carefully.

This is a 6 pg book with a few copies from the original. Don't buy this crap. Go to DSCbooks.com if you need chiropractic books.

I thought I was paying for something significant. It turned out that I paid over a dollar per page for some shit. When I went back to reread the description after my dismay when I received it, I discovered it isn't even as long as the description says it is. This is a rip off, do not spend your money on this item!

Didn't bother to read the reviews before purchasing. This was a complete waste of money for only a

few pages. I can't believe they even took the time to bind this to sell as a book. I will be returning this.

People... this is NOT a paperback.. it's an \$8 TWO PAGE article, glossy pamphlet. While I'm enthusiastic and appreciative about the indispensable knowledge contained in the Chiropractic science; there could've been a more specific description about this pamphlet. I bought this with the impression that it was a paperback book. ã Â Â^Â•

This is a really poorly copied script. Contains only pages 13, 14, 15 and 16 of the original book. HUGE disappointment! Couldn't even read some of the words.

I am embarrassed that I bought this book. It is only four pages of written material that are half written. I thought I was buying a paperback book with hundreds of pages. This is a worthless piece of material as far as I am concerned.

This is a small copy of DD's writings. So don't look for anything new or earth shakin. If you have all his writings you do not need this since this is copies of some of his writings.
