Customer Reviews

This book is great, with a concept that makes you delve into your personal life and a plot that makes you continue turning to the next page. Iris, our heroine, is witty and troubled, making her a fun person to "be" in the 1st person format. There are quite a few secondary characters, namely Kyra and Hanna, all of which add to Iris's journey. I really enjoyed the book and will keep it on the to give list for birthdays! Knowing about right and wrong is a great thing!! highly recommended.....

Jenn has done a lovely work here to put up a book on eye shadow. She has given the techniques and different ways with which to approach ones eye shadow and make it good looking. Before now, I used to see clips on ladies mobile phones on different aspects on makeover sessions but rarely did I see any on eye shadows. So there it is, thumbs up to the author of this book.

This book is perfect for an event that I'm going to attend tomorrow. It gave me tips on how to apply an eye shadow that suits my eye color. I only knew a simple eye make up application and thanks to this book- i learned other eye shadow style and practicing to apply it now. Great eye shadow tips and recommended it to all the ladies!

I've been searching for eye-shadow guide here, this is the first only book about eye shadow. I find this interesting since I am fond of putting make-up on myself. It also becomes my hobby, I usually make my sisters as model and put some make-up to them. I recommend this to those who find make-up as an art :-)

A great book, very informative. I came across this book and ordered it for my girlfriend. It gave her tips on how to apply an eye shadow that suits her eye color and she has learned little make up too. I recommend this book.

This is an amazing book on eye shadow techniques. You can get lots of information on how to apply eye shadow. All contents are very interesting and very informative. The whole book contains lots of information. Well written by Jennifer.

This book is ESSENTIAL for all of the perfect makeup looks! Just packed with professional tips, secrets that are not found anywhere else! Get the best info from this book. This really is the best makeup application book out there.

This is a perfect book for the ladies. I got this book because of my sister and she loved it. Now she doesn't have to worry about not getting her makeup right because the steps in this book are well detailed, easy to follow and apply.
